

ON TOP OF THE WORLD: INTERNA FURNISHES ARMANI HOTEL DUBAI AND ARMANI RESIDENCES DUBAI

MORE THAN 6000 ITEMS, UNIQUE FOR QUALITY AND ELEGANCE, COMMISSIONED TO INTERNA

Interna Contract, international leader in luxury furnishing for the hospitality and contract sector, from Tavagnacco, Udine, has been contracted by Emaar Hotels and Resorts LLC for part of the furnishing of Armani Hotel Dubai and Armani Residences Dubai. The exclusive hotel and residences will be the first to open as part of the collection of Armani Hotels, Armani Resorts and Armani Residences planned in key cities across the globe.

The supply will include case goods, chairs, armchairs and beds, around 6000 unique and exclusive items which Interna will produce exclusively for this project. The hotel includes 160 rooms and suites whilst the Armani Residences offers 144 one and two bedroom luxury apartments, all personally designed by Giorgio Armani.

The Armani Hotel Dubai and the Armani Residences Dubai are located in Emaar's iconic Burj Dubai, the world's tallest building. Dubai-based Emaar Properties is one of the world's largest real estate developers with a footprint in over 36 markets.

Burj Dubai currently over 700 metres high with over 160 storeys, is still under construction and will be completed in 2009. The super-tall tower lies at the centre of Downtown Burj Dubai, a 500-acre project that is anticipated to be the most luxurious square-kilometre on earth once completed.

The Armani Hotel Dubai and the Armani Residences Dubai will reflect Mr. Armani style philosophy of understated elegance. The design will accentuate the high levels of quality with innovative materials, leathers and fabric upholstery. The finest detail within the properties will be accentuated with unique pieces of furniture in various forms and sizes produced with precious woods with unusual manufacturing and ironmongery.
