

STANDARD AND CUSTOM-MADE OFFICES ON DEMAND EVERYWHERE IN THE WORLD

LOGICA PRESENTS ITS NEW CATALOGUE "LOGICA OFFICE LIVING"

We are entering the crowded market of office furniture, well aware that it is our twenty-year experience in the turn-key sector that give us the comparative advantage over our competitors. This is the reason why we have accepted this new challenge. In fact, Logica does not only own an excellent collection of standard furniture, but it also has the same technical and management expertise as the Interna Group. Therefore, Logica is able to supply any kind of furniture and finish for offices, providing turn-key solutions which are suitable both for the managerial offices of multinational corporations and for the work stations of the local bank branch.
