NEW HEADQUARTERS FOR THE INTERNA GROUP

We have recently moved into a 3-storey very modern industrial building of 3,500 square meters, which accommodates not only the Group's offices, but also the first Show Room for Interneta Collection, and "Spazio Interneta", a location for cultural events.

The stylish and functional interior design project is by FG Stijl Amsterdam, all furniture and furnishings have been made by Interneta.

Official opening planned for the end of October.
