

INTERNA AT THE 47th EDITION OF THE SALONE INTERNAZIONALE DEL MOBILE

MILAN 16th-21st APRIL 2008 / SALONE + FUORISALONE

Interna will make its debut at the Salone del Mobile (hall 5, stand M04) with a stunning high-tech stand, where we will present our contemporary design collection for the hospitality and high-end contract market.

A special temporary showroom at the Hotel Park Hyatt Milan (one day event 18th April 10am-10pm) to launch Anglodutch, the new monographic collection designed by the anglo-dutch studio FG stijl.

Interna will participate in the Salone Internazionale del Mobile in Milan with two events to appeal to interiors designers, professionals from the contract sector and all lovers of design.

For the fair in Rho, Franco Poli has designed an exclusive glass stand with diffused light as the perfect setting for furniture from Interna's contemporary line. The collection features pieces from five world famous designers: Uwe Fischer, Alfredo Haeberli, Isao Hosoe, Franco Poli and Hannes Wettstein, who have used their considerable talents to create design solutions for this sector's very special needs, above all the possibility to customize pieces in terms of sizes, materials and finishes.

The stunning Hotel Park Hyatt Milan, one of Interna's turnkey projects, is the perfect setting to present AngloDutch, our second monographic collection dedicated to the fascinating work of the AngloDutch interior design firm FG stijl and its founders, Colin Finnegan and Gerard Glintmeijer.

For their signature collection for Interna, FG stijl took the British and Dutch royal dynasties as a source of inspiration. The leitmotif of the collection is a simple - though never banal - elegance, which hints at times gone by, but at the same time embraces the very latest technology in a lively and innovative way. A collection for today's world, designed for a contemporary and refined, international lifestyle.
